### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. Claims 1-72 are allowed. The examiner on 7/14/04 mailed a restriction to the applicant which restricted the claims into two groups: the azeotropic compositions, and a method of using the azeotropic compositions.
3. The applicant selected group I, the azeotropic compositions. The examiner searched for these specific compositions and was unable to find any references either anticipated or rendering obvious the applicant's claims.
4. As group II requires all the limitations of group I and additional limitations of intended use, such claims were also found to be allowable.
5. Had the applicant originally elected group II such a situation would not have arisen. For example, the claims of group II could have cited a specific intended use not taught in the prior art. Such specific limitations in the methods claim could have made the method allowable whereas the composition could have been well-known.
6. As such the original restriction has been withdrawn and all claims have been found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
